The Model Aeronautics Association of Canada

The Model Aeronautics Association of Canada (MAAC), in conjunction with the Air Cadet League, has a program that provides monetary assistance for Squadrons wishing to establish a model aircraft program. The fund is administered by the Ontario Provincial Committee (OPC) for Squadrons across Canada who meet the application criteria. Squadrons interested in pursuing this program should contact OPC Director MGen (Ret) Bill Paisley who will provide detailed information about the MAAC program. He will also co-ordinate with MAAC and the OPC Office to arrange for instructional staff and reimbursement of expenses for supplies to a maximum of $300.00. We are also exploring the feasibility of a national Air Cadet postal contest for model aircraft.

MACC will also consider applications from cadets for bursaries of $1000.00 for the purpose of furthering education. Cadets must be members of MAAC to be eligible. (Please also note that MAAC have reduced the regular membership fee from $75.00 to $10.00 for Air Cadets - $21.00 with the MAAC Magazine subscription.)

We strongly encourage eligible Squadrons to take advantage of these programs. For details about membership, bursaries or general information please contact:

Model Aeronautics Association of Canada
5100 South Service Road, Unit #9
Burlington, ON L7L 6A5
Phone: (905) 632-3304
